Vol. 63 No. 3207

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

PRESBYCURE

GOODS

(1) Chemicals used in the pharmaceutical industry, namely, inorganic acids, alkalies, inorganic salts, chemical elements, oxides, sulphides, carbides, waters, airs, aromatics, aliphatics, organic halogenides, alcohols, phenols, ethers, aldehydes and ketones, organic acids and their salts, esters, nitrogen compounds, heterocyclic compounds, carbonic hydrates, gum Arabic, creosote, camphor, camphor oil, menthol (peppermint), peppermint oil (material for chemical preparation), borneol, proteins and enzymes, organophosphorus compounds and organoarsenic compounds, organmetallic compounds, surface-active agents (surfactants), and chemical agents and chemicals used in the photography, as well as in agriculture, horticulture and forestry industries; Unprocessed artificial resins, unprocessed plastics; Manures; Fire extinguishing compositions; tempering preparations for metals, namely, tempering chemicals; soldering preparations, namely, soldering chemicals, soldering fluxes; Chemical substances for preserving foodstuffs; tanning substances, namely, chemical tanning substances for use in the manufacture of chemicals, molds, adhesives, coatings, and plastics for use in automotive, cosmetics, aerospace, chemical, coatings, construction, electrical, electronic, health care, household care, industrial assembly and maintenance, mold making, paper, pressure sensitive, personal care, plastics, textiles, leather, and non-woven industries; Adhesives used in the pharmaceutical industry

(2) A full line of pharmaceutical and veterinary preparations, namely, pain relief medication, for the treatment of infectious diseases, respiratory diseases and disorders, cancer, gout, gastro-intestinal diseases, pulmonary hypertension, heart rhythm disorders, hormonal disorders, infectious diseases , allergic rhinitis and asthma, diabetes, skin disorders, wounds, disorders of the nervous system, the immune system, the cardio-vascular system, the metabolic system, the respiratory system, the musculo-skeletal system, the genitourinary system, inflammatory disorders, gastroenterological disorders, for the use in dermatology, oncology, haematology and in tissue and organ transplantation, in ophthalmology and the prevention of osteoporosis; Sanitary preparations for medical purposes, namely disinfectant cleaner for hygienic purposes; test strips for detecting blood glucose levels; diagnostic preparations for detecting and monitoring diabetes, hypertension, hypotension and reduced blood oxygen content; sanitary preparations for medical purposes, namely adhesive tapes and plasters for medical purposes; sanitary preparations for medical purposes, namely astringents, analgesic balms, bath salts, medicated hair care preparations, articulation and joint creams, skin cleansing lotions and anti-bacterial wound cleansers, antiseptics, soaps and cleansers; sanitary preparations for medical purposes, namely, disinfecting preparations for hands, feet, skin and body, namely sanitizers having anti-bacterial and anti-microbial properties; dietetic substances adapted for medical use, namely, dietetic foods for medical use, namely prepared meals, dietary pills and capsules, metabolites, minerals and vitamins; food for babies; medical plasters, materials, namely, bandages for dressings; Material for stopping teeth, dental wax; disinfectants for household use, disinfectants for medical instruments, all purpose disinfectants, disinfectants for industrial machinery, disinfectants for food and beverage industry, disinfectants for laundry industry, disinfectants for paper industry, disinfectants for cooling water, disinfectants for waste water, disinfectants for ballast water, disinfectants for vegetables washing water, disinfectants for animal hygiene, disinfectants for carcase washing; Preparations for destroying vermin; Fungicides, herbicides

(3) Surgical, medical, dental and veterinary apparatus and instruments, namely Abdominal belts, abdominal pads for medical use, abdominal towels for medical and surgical use, aerosol dispensers for medical use, aerosol masks for medical use, air filters for medical Ventilators, air mattresses for medical purposes, air pillows for medical purposes, anatomic pathology specimen collection kit comprising glass slides, centrifuge tubes, formalin jars, coupling jars, insert to hold slides and jars, absorbent cloth, and Instructions, all for medical use, apparatus for dispensing non-medical oxygen and aromatherapy that also utilizes light, sound, mid Vibration for relaxation therapy, athletic ankle braces for medical use, autoclaves for medical use, back Supports for medical purposes, bags for medical waste, belts for attaching medical monitors to patients, belts for medical purposes, blood collection kit comprised of blood collection bag, holder for medical sample tubes and vials, and medical sample tubes and vials, blood component Separation apparatus for medical purposes, blood pressure and diabetic diagnostic medical devices, orthopedic braces for limbs and joints for medical use, breast warmer pads for medical purposes, breath gas analyzers for medical diagnostics, canes for medical purposes, carrying cases specially adapted for holding and carrying portable medical oxygen cylinders, cases fined for medical instruments and for use by doctors, ceiling Service units specially adapted for mounting medical apparatus, for feeding electricity to medical apparatus and for supplying signals and liquids and gases to and transferring signals and liquids and gases from medical apparatus, cell culture apparatus for medical use, namely, cell culture Chambers, cervical pillows for medical use, chemically activated hot and cold gel packs for medical purposes, clothing extension support devices for use during pregnancy for medical purposes, antiseptic coatings sold as an integral component of medical stents and other implantable medical devices, compression socks for medical and therapeutic use, Computer controlled automatic injection System for injecting medical fluids during the process of diagnosis of a condition in an individual and during computed tomography (CT) procedures, Computer displays

and Computer monitors and Controllers therefor used in direct association with medical diagnosis apparatus during the process of diagnosis of a condition in an individual, computerized medical recording and analysis apparatus for the diagnosis and treatment of arrhythmias, Containers especially adapted for the disposal of medical instruments, syringes and other contaminated medical waste, Containers especially made for medical waste, Containers for medical waste, Containers for Solutions used for the treatment of renal insufficiency, namely, bags, pouches, cartridges, rigid and semi-rigid Containers for concentrates and Solutions in solid and liquid form for medical use, cooling apparatus used for medical and surgical equipment used during medical and surgical procedures, coverings for medical exam tables, cryoprobes for treatment of tumors, cytometers for medical diagnostic use, dental and medical drill bits for cutting teeth and bone, dental products, namely, plastic material for fabricating complete and partial denture liners/relines and for fabricating gaskets for over dentures, devices for measuring blood sugar for medical purposes, devices for monitoring blood glucose for medical purposes, displays, monitors and Controllers for medical fluid injectors, namely, Computer displays and Computer monitors and Controllers therefor used in direct association with medical diagnosis apparatus, displays, monitors and Controllers for medical fluid injectors, namely, Computer displays and Computer monitors and Controllers therefor used in direct association with medical fluid injectors, disposable bottle liners for use with medical apparatus, disposable headrest Covers for medical and dental examination chairs, disposable medical sterilization pouches, drainage tubes for medical purposes, dropper bottles for administering medication, sold empty, droppers for administering medication, sold empty , dropping pipettes for medical purposes, drug delivery patches sold without medication, ear plugs for medical purposes, elastic stockings for medical purposes, electric automatic moist heating pad for medical purposes, electric blankets for medical purposes, electro-surgical motors being part of surgical and medical apparatus and instruments for use in general surgery, electrochemical sensors for determination of analyte concentrations in fluids for medical purposes, electrodes for medical use, electroencephalography kit consisting of an electrode headset, a digital recorder and transmitter, a tablet computer monitor, and Instructions for use in medical settings including emergency departments, ambulances, intensive care units, and offices, electromagnetic drug delivery apparatus for medical use, electromagnetic medical diagnostic imaging apparatus, electromedical rehabilitative and pain management products for clinical and home use, namely, electrical nerve and muscle stimulators, ultrasonic stimulators, magnet therapy stimulators and laser therapy stimulators, Elizabethan collars for dogs, emergency medical equipment, namely, headboards, ergometers for medical testing purposes, eye Charts for medical examination use, feeding cups, filters for medical purposes, namely, blood and respiratory, finger guards for medical purposes, fitted sleeve for filled compressed gas cylinder used for medical purposes to identify the contents of the cylinder, flow cytometers and flow-based analyzers providing cell and particle analysis, detection, and counting for medical, clinical, medical diagnostic, and therapeutic uses, flow cytometers for medical diagnostic uses, foam positioning pads for medical and physical therapy use, forceps for medical use, gloves for medical purposes, gloves for medical purposes, namely, latex and disease prevention, gloves for medical use, goods of metal for medical use, namely, screws, plates, pins and pivots, gynecological medical instruments for examining women's reproductive organs, headlight lens modules for medical and surgical use, heat and moisture exchanger for medical use, heat lamps for medical use, heaters and warmers used for medical and surgical equipment used during medical and surgical procedures, heating cushions for medical purposes, heating pads for medical purposes, hematology analyzers for medical diagnostic uses, human face protectors, namely, transparent face shields for use in the medical and dental fields, humidification apparatus for medical purposes, humidifiers for medical use, hyperbaric oxygen Chambers for medical purposes, ice bags for medical purposes, immunochemical testing apparatus for medical use, in-ear monitors for medical purposes, infant sleep positioner cushions

for medical and therapeutic purposes, namely, for preventing disorders, inhalers for medical purposes, sold empty, injection needles for medical use, instrument and apparatus Systems for medical diagnostic uses consisting of flow cytometers, hematology analyzers, sample preparation device, and related data management Software sold as a unit, integrated medical examination Systems comprising medical devices and Computer Software for Information management for use in web-based physical examination and assessment of patients in a remote for clinical settings, irrigators for medical use, kits for the application of ice bags for medical purposes comprised of plastic ice bags for medical purposes, plastic film, handle for the application of plastic film, plastic bag sealer, plastic bag dispenser, knives for medical use, laser pointers for medical use, lasers for medical purposes, lasers for medical use, lasers for surgical and medical use, latex medical gloves, light emitting diode (LED) for lighting, incorporated into medical instruments, light emitting diode (LED) for energy-efficient replacement of Standard tungsten-filament lighting incorporated into hand-held medical instruments, light-based medical devices, namely, a light emitting diode (LED) device for increasing the human body's own production of collagen, loupes for medical purposes, namely, magnifying glasses that fit on the user's face in the manner of eyeglasses, lower body alignment apparatus for medical purposes, luminescent labels for medical applications for use during procedures and in medical environments that are dark or have lower light levels, magnets for medical purposes, magnifying glasses, for medical examination purposes, that fit on the user user's face in the manner of eyeglasses, magnifying glasses, for medical purposes, that fit on the user's face in the manner of eyeglasses, magnifying loupe for medical purposes, masks for use by medical personnel, body massagers, mastectomy bras for medical purposes, maternity support belts for medical purposes, medical and dental apparatus for dimensional measurement, namely, 3d Scanner for human body, medical and dental sterilizers, medical and surgical apparatus and instruments, namely, devices used in orthopedic surgery to position surgical instruments, implants and patients' limbs, medical and surgical apparatus and instruments, namely, orthopedic fixation device used in orthopedic transplant and implant surgery, medical and surgical apparatus and instruments, namely, vertebral osteosynthesis staple-shaped apparatus and instruments, medical and surgical catheters, medical and surgical Cutters for cutting human and animal tissue and organs, medical and surgical knives and cutters for cutting human and animal tissue and organs, medical and surgical knives for cutting human and animal tissue and organs, medical and surgical laparoscopes and catheters, medical and therapeutic device and apparatus, namely, a force and motion sensing apparatus and assisted exercise machine for the rehabilitation of hands, wrist, ankles, arms, legs, neck affected by neuromuscular diseases, disorders, and injuries for home and clinical use, medical apparatus and instrument for diagnostic use, namely, apparatus for tissue-based diagnostic testing, cytology and cell-based testing, medical apparatus and instruments for diagnostic radio pharmaceutical use, namely needles, inhalers, radiation detectors; medical apparatus and instruments for monitoring blood properties and respiratory events, medical apparatus and instruments for monitoring oximetry, gas analysis, vital signs, blood properties and respiratory events and Software sold therewith as a unit, medical apparatus and instruments for treating cardiovascular disease, medical apparatus and instruments for treating Osteoarthritis, osteoporosis, osteotraumatic injuries, degenerative bone diseases and Joint diseases, medical apparatus and instruments for use in orthopedic surgery, medical apparatus and instruments for use in positron emission tomography (PET) imaging, medical apparatus and instruments for use in positron emission tomography (PET) imaging used to monitor brain, heart and metabolic functions, medical apparatus and instruments, namely, a handheld ultrasound unit for cardiac diagnosis, Screening and cardiovascular patient follow-up, medical apparatus and units for dosage, measuring and monitoring, namely, drug delivery devices and Systems, medical apparatus for detecting Cancer, medical apparatus for detecting rapid eye movement and other physiological conditions in a sleeping person indicative of dreaming and for inducing partial awakening so as to

cause a State of lucid dreaming, medical apparatus for diagnosing and treating respiratory conditions, medical apparatus for diagnosing and treating respiratory conditions, namely, respiratory aspirators; medical apparatus for diagnosing suspected heart attacks, medical apparatus for facilitating the inhalation of pharmaceutical preparations, medical apparatus for intravenous administration of fluids, namely, fluid warmers, medical apparatus for introducing pharmaceutical preparations into the human body, medical apparatus for monitoring vital signs of patients, medical apparatus for preventing and reversing heart failure, medical apparatus for treating congestive heart failure, medical apparatus to improve cardiac Performance through aortic flow therapy, medical apparatus, namely, a spinal fusion device, medical apparatus, namely, adhesive tape for sealing plastic ice bags, medical apparatus, namely, an ear wash device in the nature of a Container to be filled with appropriate fluid by the user for flushing ear wax from the ear, medical apparatus, namely, an extremity garment donning assist device for use by physically handicapped persons, medical apparatus, namely, an injectable oxygen delivery System comprising an oxygen device which produces nanobubbles and nanobatteries to prevent and treat eye disease, medical apparatus, namely, bi-level positive airway pressure (BPAP) devices, medical apparatus, namely, blood pump System for use in artificial liver support, medical apparatus, namely , continuous positive airway pressure (CPAP) devices, medical apparatus, namely, dispensers for plastic ice bags, medical apparatus, namely, electric heating devices for curative treatment, medical apparatus, namely, electric vaporizer for upper respiratory conditions, medical apparatus, namely, electric vaporizer that emits menthol for treatment of upper respiratory conditions, medical apparatus, namely, fetal and maternal vital sign and physical distress monitors, medical apparatus, namely, handheld devices containing a foam swab for obtaining buccal cells, medical apparatus, namely, implantable ports, medical apparatus, namely, infusion and injection devices for administering drugs, medical apparatus, namely, ladder-type device to assist physically handicapped individuals in transferring from one position to another, medical apparatus, namely, lung Ventilators with monitoring capability, medical apparatus, namely, marking pens for use in surgical procedures, medical apparatus, namely, non- and low-compression devices for holding thermal packs to the breasts, medical apparatus, namely, plastic film for use in the application of ice bags, medical apparatus, namely, plastic handles for use in the application of plastic film around ice bags, medical apparatus, namely, therapeutic devices for delivering specifically engineered pressure and gas mixtures for medical benefit, medical apparatus, namely, tick removal devices, medical apparatus, namely, timing devices for uterine contractions, medical apparatus, namely, variable positive airway pressure devices (VPAP), medical apparel, namely, women's garment for use in medical examination and treatment, medical bags adapted for and sold with medical, surgical and veterinary instruments, medical bags designed to hold medical instruments, medical braces for knee, ankle, arm, leg, medical braces, namely, spring-loaded chest to leg brace used to support the body during physical activity, medical compression stockings and tights, medical device and surgical instrument for use in diagnosis and surgery of the gastro-intestinal tract, medical device for accessing subcutaneous structures of the human body for the purpose of administering medical treatment, medical device for percutaneous intraluminal emplacement of coronary bypass grafts, medical device for treating Cancer, medical device for treating lymphedema, medical device used for the acquisition of physiological data for polysomnography, medical device, namely, a device for improving cardiac Performance through aortic flow therapy, medical device, namely, a device for measuring arterial blood flow in the eye, medical device, namely, a device for measuring body position during sleep, medical device, namely, a device for measuring leg movements during sleep, medical device, namely, a remote manipulation System consisting of a robotic arm, knob, deflection lever, and buttons, to facilitate remote catheterizations, medical device, namely, a small cushioned rope embedded with activated charcoal to be worn across a person's anus for minimizing the sound and odor of flatulence, medical device, namely, a telerobotic system

consisting of a motorized catheter positioner having rotational and translational movement capability and a tele-robotic Controller with rotation, translation and deflection control buttons, to facilitate remote catheterizations, medical device, namely, breast localization wire and parts and fittings therefor, medical device, namely, carbon dioxide indicators, medical device, namely, chemiluminescent light for use in endoscopic exams, medical devices and apparatus, namely, hernia mesh and component of hernia mesh, and parts and fittings for all of the aforesaid goods, medical devices and apparatus, namely, hernia mesh, memory coil, a memory coil as a component of hernia mesh, and parts and fittings therefor, medical devices and apparatus, namely, medical guidewires and parts and fittings therefor, medical devices and apparatus, namely, mesh graft for pelvic floor reconstruction, medical devices and apparatus, namely, surgical implants comprised primarily of artificial material and also incorporating processed animal tissue for use in plastic reconstructive surgery, and repair, reinforcement and buttressing of soft tissue, and parts and fittings therefor, medical devices and apparatus, namely, ultrasound imagers and scanners and needle guides, and parts and fittings therefor, medical devices and apparatus, namely, vacuum assisted breast biopsy system and parts and fittings therefor, medical devices for amputees, namely, Supports and extensions, medical devices for dosimetry purposes in the field of radiotherapy, medical devices for kegel exercises, namely, pelvic floor exercisers for use to treat Symptoms of urinary incontinence and for therapeutic purposes, medical devices for monitoring blood properties and respiratory events, medical devices for monitoring oximetry, gas analysis, vital signs, blood properties and respiratory events and Software sold as a unit therewith, medical devices for monitoring oximetry, gas analysis, vital signs, blood properties and respiratory events and transmitting said data through the Internet, medical devices for monitoring vital signs, blood properties and respiratory events, medical devices for nonsurgical cosmetic treatments, medical devices for obtaining body fluid samples, medical devices for treating congestive heart failure, medical devices for treating vascular bifurcations, medical devices for use in cannulation and to stem the flow of traumatic bleeding, namely, tourniquets, medical devices to treat intravascular sites, medical devices used in colostomy procedures to collect waste materials, medical devices, namely, bone mineral densitometer (BMD) machines, medical devices, namely, devices for measuring wounds, medical devices, namely, devices for spinal disc repair in the nature of an apparatus used in spinal disc repair procedures, medical devices, namely, devices for spinal disc repair in the nature of spinal disc implants made from artificial substances, medical devices, namely , drinking cups for use by patients with swallowing disorders, medical devices, namely, hand-held motorized, vibrating devices used near injection sites for reducing pain during hypodermic needle injections, medical devices, namely, infusion pumps for delivering measured amounts of Solutions into the bloodstream over time, medical devices, namely, intravascular implants comprised of artificial material, medical devices, namely, minimally invasive devices for abdominal aortic aneurysms repair, medical devices, namely, myocardial ischemia scanning devices, medical devices, namely, patient monitors and patient sensors for monitoring and measuring blood properties and respiratory events, medical devices, namely, pulse oximeters, medical devices, namely, radiation devices in the nature of ultraviolet, visible, and infra-red light boxes for counteracting the effects of viruses, bacteria and pathogens in the blood and blood components, medical devices, namely, spinal cross connectors, medical devices, namely, spinal implants composed of artificial materials, medical devices, namely, surgical devices that facilitate the identification, Separation and ablation of biologic tissues, medical devices, namely, tubing and bag assembly set and other similar and related devices, which process and treat human platelets with clinical medical reagents for the purpose of enabling the refrigerated storage of human platelets for blood groups for use in blood transfusions, medical devices, namely, tubing and valve assembly set and electromechanical fluidic instrument, and other similar and related devices, which process human red blood cells with clinical medical reagents for the purpose of Converting blood groups for

use in blood transfusions, medical devices, namely, tubing and valve assembly set and electromechanical fluidic instrument, and other similar and related devices, which process human whole blood for the purpose of separating human blood components for use in blood transfusions and washing human red blood cells with clinical medical reagents for use in blood transfusions, blood pressure measuring apparatus, medical diagnostic instruments for the analysis of body fluids, medical dose meter that measures the total radiation dose received by a patient during a diagnostic procedure, medical electrodes, medical endotracheal tube with securing device, medical equipment accessories, namely, electrodiagnostic automated constant current sinusoid waveform neuroselective sensory nerve testing devices, namely, disposable electrodes, medical equipment for pediatric patients, namely, multiple position safety seat, medical equipment, namely, computed tomography (CT) apparatus, medical examination gloves, medical examination lamps, medical fluid injectors, medical gloves, medical gowns, medical guidewires, medical guidewires and parts and fittings therefor, medical hearing aids and parts thereof, medical hosiery, namely, leotards, medical hosiery, namely, support pantyhose, medical hosiery, namely, knee, thigh, leg, medical ice packs, medical image processors, medical imaging apparatus in the field of iridology, sclerology, rayid and eyology, medical imaging apparatus incorporating medical imaging Software, medical implant apparatus, namely, healing caps made of artificial matter, medical implants of artificial material in particular for anchoring Joint capsule components and ligament tendon structures, medical implants, namely, a polymer gel that is injected into the vas deferens tube for contraceptive purposes, medical instrument Organizer specially fitted with pockets adapted for holding medical instruments, medical instruments and apparatus, namely, delivery apparatus for fibrin sealant, medical instruments and devices, namely, external fixators, medical instruments for cutting tissue, medical instruments for interstitial thermotherapy of biological tissue, medical instruments for intraluminal emplacement of Stents and of synthetic Stent grafts, namely, Stent and synthetic Stent graft delivery Systems, medical instruments for percutaneous tracheostomy, medical instruments for recording heart activity, medical instruments for use in performing biopsies, medical instruments for use in surgery, medical instruments to measure blood pressure, cardiac Output and other physiological and cardiovascular parameters, medical instruments, namely, biosensors for detecting infectious diseases, medical introducers, medical intubation equipment, medical leads, namely, pulse generator leads, medical needles and introducers, medical operating lamps, medical patient treatment chairs, medical products, namely, biofeedback sensors, medical products, namely , respiratory sensors, medical products, namely, therapeutic mattress support, medical products, namely, therapeutic mattresses, beds, seats and cushions, medical scissors, medical screw connections, medical skin abraders, medical specimen bags for holding body tissue samples for testing purposes, medical specimen cups, medical spittoons, medical Stents, medical stretchers, medical supply Organizer specially adapted for holding medical instruments and pharmaceuticals for use in pediatric resuscitation, medical syringes, medical table sheets for examining tables and operating tables, medical test kits for diabetes monitoring for home use, medical testing devices for measuring hearing loss in patients, namely, audiometers, medical trays for surgical instruments for surgical and pain clinics, medical treatment clothing, medical tubing for transfusion, draining, administering drugs, medical ultrasound machine, medical ultrasound apparatus to assist in the placement of central line catheters, medical Ventilator tubing and tubing connectors, medical Ventilators, medical wearing apparel, namely, caps, medical wearing apparel. namely, scrub pants, medical wearing apparel, namely, scrub tops, medical wearing apparel, namely, shoes, medical x-ray machines, medical x-ray film, medical, surgical and orthopaedic implants made of artificial materials, meters for medical use, namely, for measuring pulse, mittens for medical use, mounts for medical x-ray negatives, mounts for x-ray negatives for medical purposes, mouth exerciser for use in exercising and strengthening mouth and facial muscles for medical and beauty benefits, mouth guards for medical purposes, nebulizer for administering medication in the form of a mist inhaled

GOODS

Class 06

(2) Common metals and their alloys; metal building materials, namely partitions and panels for construction, metal columns for construction; metal construction materials, namely structural metal beams, metal frame crosspieces; metal frames and beams; metal formwork for concrete; metal hinges; metal reinforcements for construction; metal tiles for construction, namely ceiling tiles made of metal, wall tiles made of metal; metal roof coverings; metal gates namely iron gates; metal wall coverings for construction; transportable buildings of metal, namely rolling metal shutters and security grilles, transportable display and communication boards, transportable shelters for vehicles , transportable shelters for pedestrians; transportable dwellings made of metal, namely mobile homes, manufactured homes made of metal; metal scaffolds; metal laths for applying stucco, metal laths for exterior covering; materials of metal for railway tracks; metal loading gauges for railways; metal crosspieces for railroads; steel rails; non-electric metal cables and wires, namely anchoring ropes, jumper cables, tie down straps, assembly cables, non-electrical elevator cables, telephone wires, magnetic telephone wires, heat-stable yarns and threads; power line posts made of metal; telegraph poles made of metal; metal containers, namely shipping containers, storage containers; metal tanks for storing fluids; metal containers for gas under pressure or for liquid air; metal containers for metallic liquid fuel; pipes and tubes of metal, namely metal downspouts, metal chimney pipes, pipes and tubes of metal for the transfer liquids and gas; metal manifolds for piping; metal ducts for central heating; metal ducts for ventilation and air conditioning installations; metal water pipes; metal monuments; metal casings for oil wells; metal crash barriers for roads; floating docks for mooring boats; metal mooring posts; metal plates for bracing; metal strips for bracing.

Class 09

(1) Electric cables; fibre optic cables; electrical wires; light conducting filaments, namely optical fibers; telephone wires; electricity conduits, namely electric wires, electrical fuses; electricity conduits and junctions; electrical line connectors; wireless telephony stations, namely radio transceiver apparatus, radio frequency connectors; wireless telephony pylons, namely cellular television transmission towers, cellular telephony transmission towers, radio transmission towers; information processing apparatus, namely computers, modems, facsimile machines; computer software, namely recorded programs, computer software for integrating applications and databases ; downloadable electronic publications, namely magazines, newspapers, books; computer software for operating parking facilities, namely computer software for automating the capture and identification of vehicle licence plates in order to help municipalities and businesses enforce parking regulations; parking meters; prepayment gates for parking areas; electric surveillance apparatus, namely surveillance cameras; luminous beacons, namely beacons for road signalling; luminous or mechanical road signs; luminous or mechanical signals; luminous or mechanical signalling panels; electric apparatus for measuring, namely altimeters, anemometers, variometers, accelerometers, aerodynamic sensors; apparatus for measuring distances, namely level measuring machines for surveying; satellite signalling apparatus, namely vehicle-mounted computers, namely digital signalling monitors; satellite navigation apparatus for vehicles, namely vehicle navigation apparatus in the form of on-board computers; remote guidance apparatus, namely global positioning system (GPS) consisting of computers, computer software, transmitters, receivers and network interface units; apparatus for railway traffic signalling, namely signal bells, signal lights; electric control apparatus, namely voltage monitor modules; instruments and machines for materials testing, namely machines for testing metal compression, metal hardness testing machines; machines for weighing, namely scales for controlling loads in trucks and trains.

Class 19

(3) Building materials, not of metal namely construction lumber; non-metal frames and beams; non-metal construction reinforcements; non-metal tile floorings tiles for construction, namely earthenware tiles, window panes, floor tiles made of wood; non-metal partitions and construction panels, namely laminate panels, concrete panels, wood panels, drywall; non-metal panel coverings , namely for construction; non-metal roof coverings; non-metal roofing; non-metal gates, namely wooden gates; plate glass, namely glass for construction; non-metal wainscoting, namely wooden panelling; non-metal palisades; non-metal building materials, namely reinforcements, non-metallic roof coverings, felt for building, tar, insulating glass; concrete; non-metal formwork for concrete; concrete building elements, namely concrete slabs, concrete panels and walls; bitumen products for construction, namely bituminous covering materials; cement plates; non-metal water pipes, namely water pipes made of concrete; non-metal ducts for ventilation and air conditioning installations; rigid pipes for building, not of metal, namely sewer pipes, gutter pipes, drain pipes; masts, namely non-metal posts, namely cement posts; tanks made of masonry, namely water tanks made of masonry for household use; transportable buildings, not of metal, namely portable shelters for vehicles; monuments, not of metal, namely marble monuments, concrete monuments, stone monuments; non-metal floating docks for mooring boats; prefabricated non-metal docks; non-metal crash barriers for roads; non-metal signalling panels, neither luminous nor mechanical; non-metal road signs, neither luminous nor mechanical; asphalt; bitumen; tar; tarred strips for construction; materials for building and coating pavement, namely binders for road maintenance and tarred strips for construction; binders for making and maintaining roads; mortar for use in building; plate sheets made of artificial materials for marking road surfaces; glass pellets for marking road surfaces; non-metal railroad ties; non-metal power line poles; non-metal poles, namely non-metal telegraphic poles. .

SERVICES

Class 35

(1) Advertising, namely advertising services for the goods and services of others; publication of advertising copy; dissemination of advertising material for others, namely tracts, flyers, printed matter, namely catalogues and pamphlets, samples; promotional advertising of real estate projects, namely promotion of the sale of goods and services for the distribution of advertising material and promotional contests; rental of advertising time on all means of communication, namely provision of advertising space in periodicals, newspapers and magazines and on the Internet; rental of advertising space; dissemination of advertisements for others; organization of exhibitions for commercial purposes and for advertising the goods and services of others in the field of real estate projects; public relations; business management assistance; consulting and advisory services in business management and organization; business affairs estimates and expertise; investigations and research for business; business information, namely consulting and information in relation to business management; market studies; market research; accounting; economic forecasting; statistical information, namely compilation of statistics; collection of data in a central file, namely management and compilation of computer databases; computer file management; searching for information in computer files for others.

Class 36

(2) Insurance; real estate insurance; insurance brokerage; contingency funds; financial affairs, namely securities brokerage, dissemination of financial information via computer database, financial exchange of data between financial institutions and their clients, financial appraisal for insurance, banking, and real estate purposes, financial information provided online, organization of stock exchanges for trading stocks and other financial securities, provision of financial information, financial research and analysis services and, financial estimate services; financial estimates regarding insurance, banking, and real estate, namely financial estimates regarding the cost of building and renovating homes, antique appraisals, calculation of premium rates for insurance; toll collection services; loan financing; debt collection agency; real estate affairs; real estate expertise; real estate management; real estate agencies; real estate brokerage; real estate appraisals; rental of apartments, of offices, namely real estate, of agricultural operations, namely leasing of farms.

Class 37

(3) Supervision, namely management of construction work; information related to construction; construction, servicing, operation, and maintenance of real estate work, plants, ports, bridges, and tunnels; construction, maintenance, operation of thermal, electric, and wind power stations; construction, servicing, and maintenance of thermal, air conditioning, electric, and monitoring facilities; public works, namely construction of roads, bridges, and other art work for public use; construction, servicing, operation, and maintenance services for parking facilities, railroads, and roads; road resurfacing; road cleaning and servicing; installation, repair, and maintenance of overpasses, oil pipelines, dams, navigation locks, irrigation devices; diking work; dredging; drilling of wells and tunnels; earthwork; quarrying; mining extraction; masonry; painting; plumbing; installation and repair of cable networks; installation and implementation of antennas, towers, power lines, lightning arrester systems, cable trays; installation and repair of electric apparatus, namely installation of electric machines and electrical generators; installation and repair of air conditioning apparatus; installation and repair of elevators; roofing work; insulation services in the field of construction; sealing services in the field of construction; cleaning of buildings, namely of exterior surfaces; mounting of scaffolding; building demolition; maintenance, renovation, and restoration of historical landmarks, buildings, works, or monuments; rental of work site machinery, bulldozers, cranes, excavators; installation, maintenance, and repair of work site machines; vehicle maintenance; assistance in the event of vehicle breakdowns, namely repair; car washing; vehicle polishing; service stations.

Class 38

(4) Telecommunications, namely communication by all broadcasting means including by fibre optic networks, computer terminals, namely provision of multiple-user access to a computer network, airtime package services for communications and wireless telecommunications, namely mobile radiotelephony and mobile telephony services, electronic transmission of data, namely text messages, sounds, graphics, and videos, namely still and animated images and transmission of information via computer server in the field of real estate projects, via telephone lines, radio and microwave transmission, and via satellite, namely email services; telecommunications forwarding and linking services, namely telecommunications routing and linking services; electronic messaging , namely text messaging services; connection via telecommunications to a global computer network , namely via the Internet, telephone, satellite, via email, file transfer protocol (FTP), peer-to-peer network (P2P); information regarding telecommunication via computer database in the fields of email services, of telecommunications routing and linking.

Class 39

(5) Transport of products, passengers, and travellers by air, boat, and rail; transport information via computer database in the field of the transport of products, passengers, and travellers by air, boat, and rail; freight shipping services; distribution of energy, namely utility services for the generation and distribution of electricity and natural gas; water distribution, namely public utility services consisting of water distribution; steam distribution, namely energy recovery consisting of the capture and conversion of waste materials into electricity and useful steam; transport via pipeline, namely pipeline transport of oils and gas; travel arrangement; travel reservation; parking lot services; garage rental; rental of car parks; rental of warehouses; vehicle rental; assistance in the event of vehicle breakdowns, namely towing.

Class 40

(6) Thermal treatment of metals; metal hardening; metal plating; coating, namely metal plating; plating via electrolysis, namely coating; nickel plating of metals; grinding, namely treatment of ceramic and metal; planing of wood and metal; sawing of wood and metal; welding of metals; laser cutting of metals; polishing, namely abrasion, namely burnishing of metals via abrasion; oil refining; asbestos removal, namely removal of asbestos; power generation, namely generation of electricity from solar energy; rental of generators; waste treatment, namely processing; sorting of waste and of raw materials for recovery, namely processing; waste incineration; recycling of waste and garbage; water treatment; work and sanitation namely water sanitation engineering; drainage work, namely work for the spontaneous or induced evacuation, through a network of drains or ditches, of excess water from exceedingly wet soil; air purification and regeneration.

Class 42

(7) Architecture; surveying; field mapping; calibration, namely determination of the relationship between measuring apparatus and the values to be measured, by comparing through a calibrator; construction consulting, namely consulting services in relation to the supervision of the construction of buildings; drafting of construction plans; industrial design; technical project studies in the field of real estate projects; expertise, namely engineering work, namely civil engineering; engineering, namely engineering related to construction, industrial research and product development for others; mechanical and physical research; technical research, namely geological research; materials testing; quality control for constructions; geological expertise; geological prospecting; geological research; oil prospecting; oil-well testing; oil deposit exploration analysis; oil deposit expertise; computer programming; development, namely computer software design; installation of computer software; maintenance of computer software and computers; updating of computer software; conversion of data from physical to electronic media; consulting related to environmental protection

Colour Claim

Colour is claimed as a feature of the trade-mark. The colors black and white are claimed as a feature of the mark. The mark consists of a rectangle in portrait orientation with corniced corners, where the body of the mark is black, surrounded by a thin white border. The white border is bounded by a dotted line to show its extent, but such dotted line is not a part of the mark and no claim is made thereto. On the background appears an image of a black and white hot air balloon (where the top and bottom portions are black, and the middle portion is white with some shading) with the text 'RE/MAX' written in black. The balloon is outlined in white. Below the balloon the words 'THE RE/MAX COLLECTION' appear in white serif font, with white horizontal rules below and above the words.

The Registrar hereby gives public notice under subparagraph 9(1)(n)(iii) of the Trade-marks Act, of the adoption and use in Canada by British Columbia Lottery Corporation of the mark shown above, as an official mark for goods and services.

Description
Colour is as a feature of the official mark. The official mark comprises a hexagon-shaped callout. The top of the hexagon-shaped callout is dark blue in colour, and the blue colour gradually becomes lighter towards the bottom of the callout. The official mark also comprises the words "lotto ! express" in fancy characters inside the hexagon-shaped callout. The word "lotto!" is above the word "express" and both words are white in colour.
